- Check the status of your TSRs and TDRs
- Verify your inventory of voice and data equipment
- Review your monthly bills - the three most current months are available on-line
- View the State Directory database

Courses have been broken into two sessions:

MONIES 101 is for people who have not had prior MONIES training. Students are taught:

- How to logon to MONIES and to negotiate the application
- How to know where you are within the application
- How to do simple searches for answers to questions about the inventory

MONIES 202 is for anyone who has already attended MONIES 101 and has additional questions.

- Students who enroll in the MONIES 202 class will be asked to submit two questions in advance for review during class.
